The floods throughout South Florida 17 years ago were spectacular in their devastation of crops, pasture, buildings and property; fortunately the lives of people were protected by experience gained in Disaster Relief and Red Cross training.
Great effort, beginning in the Glades and channelled thru the offices of Senator Holland and Florida Congressmen brought about federal authority for the stablishment of the 18-county C&SF Flood Control District.

## The Other Boy Was Hired

There's been a good deal of talk these days about teenage employment. Some of it hits the nail on the head — but much

of ill misses by a country mile or more,

A country editor up in Whitefish, sphile to him for a job. We
agree with Paul Mingham, edit no of the Atchion, Kansas,

Globe, that there was more truth than poetry to the first there was more truth than poetry to.

Dear Kid:
Today you asked me for a job, From the look of your shouldas you walked out. I suspect you've been turned down beand maybe you believe by now that kids who dropped out
light school can't find work.
But I hired a teenager today. You saw him. He was the one

What was so special about him? Not experience

What was so special about him? not experience - neuture you had any. It was hig attitude that put him on the payroll sadd of you. Attitude, son, A-T-T-I-U-D-E!

He wanted the job bad enough to shuck the leather jacket, the haircut, and look in the phone book to find out what this mpany makes. He did his best to Impress me, That's where added you not.

You see, kil, people who hire people aren't "with" a lot of ings. We know more about Bing than about Rings. And we we some stone age ideas about who owes whom a living. Maybe their makes us pre-historic, but there's nothing wrong with eichecks we sign, and if you want one you'd better tune to our heart to have a longth.

posselly President Johnson's.

What I needed was someone who'd go out in the plant, keep his eyes open, and work for me like he'd work for himself. If you have even the vaguest idea of what I'm trying to say, let it show the next time you ask for a job, You'll be head and shoulders over the rest.

Look, kid The only time jobs grew on trees was while most of the manpower was wearing GI's and pulling KP, For all the ress of history you've had to get a job like you get a girl, "Case" the situation, wear a clean shirt, and try to appear reasonably willing.

Maybe jobs for young fellows like you aren't too plentiful risat now, but lots of us can remember when master craftemen walked the streets. By comparison you don't know the meaning of the word "scarce."

of the word "scarce."

You may not believe it, but all around you employers are looking for young men smart enough to go after a job in the old-fashloned way. When they find the right one, they can't wait to sincled some of their worries on him.

For both our sakes—get eager, will you?

UNCLE DAN from DOOLIE Says:
